AARAB RAJ

Computer Science & Engineering (IoT) Student

Patna, Bihar • +91 9006795083 • aarabraj771@gmail.com

CAREER OBJECTIVE

Motivated Computer Science & Engineering (IoT) student with a strong interest in software development, frontend web development, and problem solving. Seeking opportunities to apply programming skills, build real-world projects, and grow as a software developer.

EDUCATION

B.Tech – Computer Science & Engineering (IoT) — Present
Bakhtiyarpur College of Engineering, Bihar
Currently Pursuing

Diploma — CGPA: 8.01
Government Polytechnic, Buxar, Bihar

Class 10th – CBSE Board — 80.1%

TECHNICAL SKILLS

Programming: Java

Web: Frontend Web Development

Core: Data Structures & Algorithms, Problem Solving

Platforms: GitHub, LeetCode

PROJECTS

- Landslide Prediction & Monitoring System — Developing a software-based solution for landslide risk prediction and monitoring using Python, Flask, machine-learning concepts and web technologies.
- Frontend Web Development Practice — Building responsive web interfaces and strengthening HTML/CSS/JavaScript fundamentals.

ACHIEVEMENTS

- Solved 50+ Data Structures & Algorithms problems on LeetCode.
- Consistent practice in Java and core DSA concepts.

AREAS OF INTEREST

Software Development • Frontend Web Development • Data Structures & Algorithms • IoT

STRENGTHS

Problem Solving • Quick Learner • Consistency • Willingness to Learn New Technologies

LANGUAGES

Hindi • English
